Ezequiel Gatica

Full Stack Developer & Tech Lead

ABOUT ME

An inquisitive and curious mind that enjoys facing challenges and transforming ideas into prototypes without sacrificing attention to detail. My approach is based on user empathy: I understand the context and needs of the end-user to design intuitive and valuable experiences.
I adapt easily to new challenges, constantly researching and applying improvements to my personal projects. I aspire to join teams that value creativity, growth, and real impact.

WORK EXPERIENCE

Technical Leader @ Kovix

MAY 2024 - PRESENT

- Lead of one of the verticals within the company's largest project.
- Transforming operational requests into system updates in a short timeframe.
- Using my project experience, I perform the technical design of new features and their integration into existing workflows.
- Optimizing system load in preparation for upcoming massive sales events (Cybermonday, Hot Sale, Black Friday).

Full Stack Developer @ Kovix

JANUARY 2022 - MAY 2024

- Developer for a management and logistics system for Frávega, one of the biggest retailers of electronics in Argentina.
- Streamlined and optimized operations to process thousands of orders per hour, destined for the company's 100+ branches nationwide, 24 hours a day.
- Strong focus on the system's usability and user experience. Each screen is designed to display relevant information in a compact space.

EDUCATIÓN

Bachelor of Information Technology @ Universidad de Palermo

2025 - 2027, Buenos Aires, AR

Systems Analyst @ Instituto Tecnologico ORT

2022 - 2024, Buenos Aires, AR
